Additional Information

Description: The Capital Credit Union Elevate Communities program will be used to develop and/or support initiatives brought forward by civic, municipalities and other service organizations to fill financial limitations that may hinder a community from obtaining items or doing projects of need. Through this program, subject to the availability of funding, the Elevate Communities Program will provide a limited number of project funds to enhance the quality of life in communities, improve services offered by organizations, and help provide funding to projects and tools that may not be possible to obtain without this funding. The EC offers a partnership to be established between the recipients and the agency, Capital Credit Union for a determined amount of time set by project need. This encompasses employee volunteer work, if requested, project materials, time on project, marketing, communication and more. This will be determined between recipients and the agency prior to funds being dispersed.

This program is not to be viewed as an ongoing funding resource. The EC program may be discontinued at any time by the agency.

The agency reserves the right to accept or decline recipients and to disperse funds. If the agency does not receive enough eligible applicants to use the total program funding of \$100,000, they can withhold the remaining funds.
